

Project Planning – All because of an acorn.

Class Edison Autumn 2021

A golden acorn arrives in school.
Who sent it and why?
We will be looking at seasons in our country and what happens within these seasons will find out which months of the year belong to which season.

We will look at what the weather is like in spring, summer, autumn and winter, and what this means for animals, people and the landscape.
We will be looking at light and what effect darkness has on life and why plants won't grow in the winter.

We will look at harvest time and the vegetables harvested in Autumn, as well as making and eating pumpkin soup.

We will be working on descriptive writing about settings and characters.
Report writing about where the different vegetables and fruit come from.

We will look at the UK and the different parts. We will identify hot and cold places and the equator, North and South poles.

We will end our learning with a Christmas celebration and learn the Christmas story.

We will look at all the celebrations that fall into the Autumn Term: Harvest, Halloween, bonfire night, remembrance Sunday, ending with Christmas.
