

John Hellins Primary School

PSHE (Personal, Social, Health Education) Policy (including Relationships and Health Education statutory from October 2021, and Sex Education)

Policy Written: October 2021

Approved by Staff: October 2021

Approved by Governors: October 2021

Review date: Jan 2025

Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

In June 2019, the government issued the new Relationships and Sex Education (RSE) and Health Education statutory guidance. This new curriculum is mandatory in schools from September 2020 and can be found by following this link:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/805781/Relationships_Education_Relationships_and_Sex_Education_RSE_and_Health_Education.pdf

There are four main aims for teaching RSE within the context of Primary School PSHE (Personal, Social, Health Education):

1. More than ever before, children are exposed to representations of sex and sexuality through the social culture around them. The unregulated content on the internet or social media, can mean children may be exposed to dangerous, confusing or scary content. We can prepare them for this by presenting a balanced view of positive healthy relationships to help them to be discerning and to stay safe.
2. There is much independent research showing most parents and carers value the support of schools in providing Relationship and Sex Education for their children. Parents and schools want children to be safe and happy.
3. A range of independent research consistently shows that effective Relationship Education delays first sexual experience and reduces risk-taking in young people.
4. Surveys of children and young people, as well as Ofsted, have repeatedly said that Relationship and Sex Education tends to be “too little, too late and too biological”. This is one of the many reasons why the Department for Education is making Relationships and Health Education compulsory in primary schools from September 2020, with an emphasis on Relationships Education.

PSHE at John Hellins - Background

At John Hellins, we follow a programme called Jigsaw for all of our PSHE lessons. We have been using this successfully since 2018 and have found the outcomes to be very positive. The programme was updated in 2020 to include the new statutory guidance. At John Hellins we have implemented a slight modification to the delivery of Sex Education which is detailed later on in this policy.

The Jigsaw Scheme

Jigsaw, the mindful approach to PSHE (Personal, Social, Health Education) is a teaching and learning programme which includes the statutory RSHE (Relationships Education, Sex Education and Health Education) and has a strong focus on emotional and mental health and wellbeing. Jigsaw believes that this work is vital to support children's development and to underpin their learning capacity. Jigsaw, like schools and parents, want children to be safe, healthy and happy. The programme is respectful of the faith, beliefs and contexts of children's families. Children's safety and wellbeing is paramount.

What are the aims of Relationships Education, Sex Education and Health Education in Primary Schools?

The opening paragraph of the Department for Education guidance states: "Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way." (DfE, 2019, Relationships Education, Relationships and Sex Education and Health Education)

What must primary schools teach in Relationships Education, Health Education and Sex Education?

In September 2020, Relationships and Health Education became compulsory in all primary schools in England. For primary aged children this includes curriculum content under two headings (there is further detail around each of these areas in the DfE Guidance – see Appendix 2):

Relationships Education

- Families and people who care for me
- Caring Friendships
- Respectful Relationships
- Online Relationships
- Being Safe

Health Education

- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy Eating
- Drugs, alcohol and tobacco
- Health and prevention
- Basic first aid
- Changing adolescent body

Sex Education - Background

The DfE guidance clearly states the statutory requirements, i.e. what children MUST be taught by the end of primary school. Health Education includes learning about 'the changing adolescent body' to equip children to understand and cope with puberty. The National Curriculum for Science (also a compulsory subject), includes learning the correct names for the main external body parts, learning about the human body as it grows from birth to old age and reproduction in some plants and animals (which could include human beings).

Relationships Education, Health Education and Science are compulsory subjects and parents/carers do NOT have the right to withdraw their children from these subjects. It is up to primary schools to determine what is meant by 'Sex Education'. At primary school age, it is usually agreed to mean 'human reproduction', and can be taught within Science. If, however, it is taught within PSHE/RSHE parents have the right to request their child is withdrawn from these specific lessons. More detail on this process of withdrawal at John Hellins is covered later in this policy.

Sex and Health Education within the Jigsaw Scheme

Within the Jigsaw scheme, there is a unit called 'Changing Me' which is taught over a period of 6 weeks, usually in the second half of the summer term. Each year group will be taught appropriate to their age and developmental stage, building on the previous years' learning. At no point will a child be taught something that is inappropriate; and if a question from a child arises and the teacher feels it would be inappropriate to answer, (for example, because of its mature or explicit nature), the child will be encouraged to ask his/her parents or carers at home. The question will not be answered to the child or class if it is outside the remit of that year group's programme. The Changing Me unit is all about coping positively with change and includes:

Reception - Growing up: how we have changed since we were babies.

Year 1 - Boys' and girls' bodies; correct names for body parts.

Year 2 - Boys' and girls' bodies; body parts and respecting privacy (which parts of the body are private and why this is).

Year 3 - How babies grow and how boys' and girls' bodies change as they grow older. Introduction to puberty and menstruation.

Year 4 - Internal *and external reproductive body parts**. Recap about puberty and menstruation. *Conception explained in simple terms**.

Year 5 - Puberty for boys and girls in more detail including the social and emotional aspects of becoming an adolescent. *Conception explained in simple biological terms**.

Year 6 - Puberty for boys and girls revisited. Understanding conception to the birth of a baby. Becoming a teenager. All lessons are taught using correct terminology, child-friendly language and diagrams

**These elements will be delayed until Year 6 at John Hellins – please see Sex Education section for more detail*

Parent and Governor Consultation

In preparation for delivering the new mandatory curriculum at John Hellins, we conducted thorough research and underwent a comprehensive consultation process with a broad cross section of our parents and governors. The recommendations that were made are detailed below. These were fully supported and approved by this process and now form part of this policy:

1. We will deliver Sex Education (Human Reproduction, Conception and Birth) through our PSHE Curriculum (using Jigsaw) and not our Science curriculum. We firmly believe that it is within the best interest of our children to deliver sex education within the context of healthy relationships, enabling them to explore the emotional elements as well as the biological.
2. We will delay delivery of the following Year 4/5 elements of the 'Changing Me' unit from the Jigsaw scheme).
 - a. Year 4 - Internal and external reproductive body parts. Conception explained in simple terms.
 - b. Year 5 - Conception explained in simple biological terms.
3. The above modules will be delivered within Year 6. The scope of Sex Education in Year 6 will therefore be human reproduction, internal and external reproductive body parts, conception (including erection and ejaculation) and child birth. We will give our Year 6 parents a more detailed overview of the content before it is delivered, with guidance on conversations and discussion that could be extended at home.
4. As per the 'Changing Me' unit, puberty will be introduced gently in Year 3 because some girls may start their periods this early and it is necessary to prepare them for this, so they aren't scared or worried.
5. The correct names for body parts (e.g. penis, testicles, vagina, vulva, anus) will be introduced in Year 1 – this is introduced early to normalise this biological vocabulary and to support safeguarding. These words are taught in conjunction with ensuring children know these are private parts of their bodies.

The Right to be excused from Sex Education (commonly referred to as the right to withdraw)

Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory RSE. The DfE recommendation is that:

“Before granting any such request it would be good practice for the head teacher to discuss the request with parents and, as appropriate, with the child to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. Schools will want to document this process to ensure a record is kept. Good practice is also likely to include the head teacher discussing with parents the benefits of receiving this important education and any detrimental effects that withdrawal might have on the child. This could include any social and emotional effects of being excluded, as well as the likelihood of the child hearing their peers' version of what was said in the classes, rather than what was directly said by

the teacher (although the detrimental effects may be mitigated if the parents propose to deliver sex education to their child at home instead). Once those discussions have taken place, except in exceptional circumstances, the school should respect the parents' request to withdraw the child, up to and until three terms before the child turns 16.

At John Hellins, the right to withdraw children from the Year 6 Sex Education lessons will be by exception, i.e. parents must actively request withdrawal of their child if they wish to - rather than us asking parents to 'opt in'. Participation in these lessons will therefore be standard, unless parents request otherwise for their child.

PSHE Curriculum Overview

At John Hellins Primary School, we teach Personal, Social, Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity. We use the Jigsaw Programme to deliver the PSHE curriculum across the whole school.

The Jigsaw Programme offers us a comprehensive, carefully thought-through Scheme of Work which brings consistency and progression to our children's learning in this vital curriculum area.

The overview of the programme can be seen on the school website.

This also supports the "Personal Development" and "Behaviour and Attitude" aspects required under the Ofsted Inspection Framework, as well as significantly contributing to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

Statutory Relationships and Health Education

"The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations 2019, made under sections 34 and 35 of the Children and Social Work Act 2017, make Relationships Education compulsory for all pupils receiving primary education...They also make Health Education compulsory in all schools except independent schools. Personal, Social, Health and Economic Education(PSHE) continues to be compulsory in independent schools."

DfE Guidance p.8

"Today's children and young people are growing up in an increasingly complex world and living their lives seamlessly on and offline. This presents many positive and exciting opportunities, but also challenges and risks. In this environment, children and young people need to know how to be safe and healthy, and how to manage their academic, personal and social lives in a positive way."

"This is why we have made Relationships Education compulsory in all primary schools in England...as well as making Health Education compulsory in all state-funded schools."

“In primary schools, we want the subjects to put in place the key building blocks of healthy, respectful relationships, focusing on family and friendships, in all contexts, including online. This will sit alongside the essential understanding of how to be healthy.”

“These subjects represent a huge opportunity to help our children and young people develop. The knowledge and attributes gained will support their own, and others’ wellbeing and attainment and help young people to become successful and happy adults who make a meaningful contribution to society.”

Secretary of State Foreword DfE Guidance 2019 p.4-5

“Schools are free to determine how to deliver the content set out in the DfE guidance 2019 in the context of a broad and balanced curriculum. Effective teaching in these subjects will ensure that core knowledge is broken down into units of manageable size and communicated clearly to pupils, in a carefully sequenced way, within a planned programme of lessons.”

DfE Guidance p.8

“All schools must have in place a written policy for Relationships Education and RSE.”

DfE Guidance p.11

Here, at John Hellins Primary School we value PSHE as one way to support children’s development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning.

We include the statutory Relationships and Health Education within our whole-school PSHE Programme.

To ensure progression and a spiral curriculum, we use Jigsaw, the mindful approach to PSHE, as our chosen teaching and learning programme and tailor it to your children’s needs. The mapping document: Jigsaw 3-11 and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements.

This programme’s complimentary update policy ensures we are always using the most up to date teaching materials and that our teachers are well-supported.

Our PSHE policy is informed by existing DfE guidance:

- [Keeping Children Safe in Education](#) (statutory guidance)
- [Respectful School Communities: Self Review and Signposting Tool](#) (a tool to support a whole school approach that promotes respect and discipline)
- [Behaviour and Discipline in Schools](#) (advice for schools, including advice for appropriate behaviour between pupils)
- [Equality Act 2010 and schools](#)
- [SEND code of practice: 0 to 25 years](#) (statutory guidance)
- [Alternative Provision](#) (statutory guidance)
- [Mental Health and Behaviour in Schools](#) (advice for schools)

- [Preventing and Tackling Bullying](#) (advice for schools, including advice on cyberbullying)
- [Sexual violence and sexual harassment between children in schools](#) (advice for schools)
- [The Equality and Human Rights Commission Advice and Guidance](#) (provides advice on avoiding discrimination in a variety of educational contexts)
- [Promoting Fundamental British Values as part of SMSC in schools](#) (guidance for maintained schools on promoting basic important British values as part of pupils' spiritual, moral, social and cultural (SMSC))
- [SMSC requirements for independent schools](#) (guidance for independent schools on how they should support pupils' spiritual, moral, social and cultural development).

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

What do we teach when and who teaches it?

Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

Term	Puzzle (Unit)	Content
Autumn 1:	Being Me in My World	Includes understanding my own identity and how I fit well in the class, school and global community. Jigsaw Charter established.
Autumn 2:	Celebrating Difference	Includes anti-bullying (cyber and homophobic bullying included) and understanding
Spring 1:	Dreams and Goals	Includes goal-setting, aspirations, who do I want to become and what would I like to do for work and to contribute to society
Spring 2:	Healthy Me	Includes drugs and alcohol education, self-esteem and confidence as well as healthy lifestyle choices, sleep, nutrition, rest and exercise
Summer 1:	Relationships	Includes understanding friendship, family and other relationships, conflict resolution and communication skills, bereavement and loss
Summer 2:	Changing Me	Includes Relationships and Sex Education in the context of coping positively with change

At John Hellins Primary School we allocate approximately one hour to PSHE each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way.

These explicit lessons are reinforced and enhanced in many ways:

Assemblies and collective worship, praise and reward systems, Learning Charter, through relationships child to child, adult to child and adult to adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community. Class teachers deliver the weekly lessons to their own classes.

Relationships Education

What does the DfE statutory guidance on Relationships Education expect children to know by the time they leave primary school?

Relationships Education in primary schools will cover 'Families and people who care for me', 'Caring friendships', 'Respectful relationships', 'Online relationships', and 'Being safe'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

Health Education

What does the DfE statutory guidance on Health Education expect children to know by the time they leave primary school?

Health Education in primary schools will cover 'Mental wellbeing', 'Internet safety and harms', 'Physical health and fitness', 'Healthy eating', 'Drugs, alcohol and tobacco', 'Health and prevention', 'Basic First Aid', 'Changing adolescent body'.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. Emotional and mental health is nurtured every lesson through the Calm me time, social skills are grown every lesson through the Connect us activity and respect is enhanced through the use of the Jigsaw Charter.

Also, teaching children about puberty is now a statutory requirement which sits within the Health Education part of the DfE guidance within the 'Changing adolescent body' strand, and in Jigsaw this is taught as part of the Changing Me Puzzle (unit).

Again, the mapping document transparently shows how the Jigsaw whole-school approach spirals the learning and meets all statutory requirements and more.

Sex Education

The DfE Guidance 2019 (p.23) recommends that all primary schools 'have a sex education programme tailored to the age and the physical and emotional maturity of the pupils.

However, 'Sex Education is not compulsory in primary schools'. (p. 23)

Schools are to determine the content of sex education at primary school. Sex education 'should ensure that both boys and girls are prepared for the changes that adolescence brings and – drawing on knowledge of the human life cycle set out in the national curriculum for science - how a baby is conceived and born'.

At John Hellins Primary School, we believe children should understand the facts about human reproduction before they leave primary school so:

1. We will deliver Sex Education (Human Reproduction, Conception and Birth) through our PSHE Curriculum (using Jigsaw) and not our Science curriculum. We firmly believe that it is within the best interest of our children to deliver sex education within the context of healthy relationships, enabling them to explore the emotional elements as well as the biological.
2. We will delay delivery of the following Year 4/5 elements of the 'Changing Me' unit from the Jigsaw scheme).
 - a. Year 4 - Internal and external reproductive body parts. Conception explained in simple terms.
 - b. Year 5 - Conception explained in simple biological terms.
3. The above modules will be delivered within Year 6. The scope of Sex Education in Year 6 will therefore be human reproduction, internal and external reproductive body parts, conception (including erection and ejaculation) and child birth. We will give our Year 6 parents a more detailed overview of the content before it is delivered, with guidance on conversations and discussion that could be extended at home.
4. As per the 'Changing Me' unit, puberty will be introduced gently in Year 3 because some girls may start their periods this early and it is necessary to prepare them for this, so they aren't scared or worried.
5. The correct names for body parts (e.g. penis, testicles, vagina, vulva, anus) will be introduced in Year 1 – this is introduced early to normalise this biological vocabulary and to support safeguarding. These words are taught in conjunction with ensuring children know these are private parts of their bodies.

The Right to be excused from Sex Education (commonly referred to as the right to withdraw)

“Parents have the right to request that their child be withdrawn from some or all of sex education delivered as part of statutory Relationships and Sex Education” DfE Guidance p.17

The DfE recommends that “Before granting any such request it would be good practice for the head teacher to discuss the request with parents and, as appropriate, with the child to ensure that their wishes are understood and to clarify the nature and purpose of the curriculum. Schools will want to document this process to ensure a record is kept. Good practice is also likely to include the head teacher discussing with parents the benefits of receiving this important education and any detrimental effects that withdrawal might have on the child. This could include any social and emotional effects of being excluded, as well as the likelihood of the child hearing their peers’ version of what was said in the classes, rather than what was directly said by the teacher (although the detrimental effects may be mitigated if the parents propose to deliver sex education to their child at home instead). Once those discussions have taken place, except in exceptional circumstances, the school should respect the parents’ request to withdraw the child, up to and until three terms before the child turns 16”

At John Hellins, the right to withdraw children from the Year 6 Sex Education lessons will be by exception, i.e. parents must actively request withdrawal of their child if they wish to - rather than us asking parents to ‘opt in’. Participation in these lessons will therefore be standard, unless parents request otherwise for their child. Parents will be informed of this right in the Year 6 Spring Term before the modules are taught.

Monitoring and Review

The Learning and Wellbeing (governing body) committee monitors this policy on an annual basis. The Learning and Wellbeing committee reports its findings and recommendations to the full governing body, as necessary, if the policy needs modification. The Learning and Wellbeing Committee gives serious consideration to any comments from parents about the PSHE (RSHE) programme, and makes a record of all such comments. Governors scrutinise and ratify teaching materials to check they are in accordance with the school’s ethos.

Equality

This policy will inform the school’s Equalities Plan.

The DfE Guidance 2019 (p. 15) states, “Schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure they comply with the relevant provisions of the Equality Act 2010 under which sexual orientation and gender reassignment are amongst the protected characteristics...

At the point at which schools consider it appropriate to teach their pupils about LGBT (Lesbian, Gay, Bisexual, Transgender), they should ensure this content is fully integrated into

their programmes of study for this area of the curriculum rather than delivered as a stand-alone unit or lesson. Schools are free to determine how they do this, and we expect all pupils to have been taught LGBT content at a timely point as part of this area of the curriculum”.

At John Hellins Primary School we promote respect for all and value every individual child. We also respect the right of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education.

LGBT+

School (and wider society) is a place where all children should feel safe and respected. There are a variety of family situations in British society; some children will have parents who are separated, some may live with a mum and a dad, some may have step-parents, and some may be fostered or adopted. Some may have other family arrangements; and some will have LGBTQ parents or other LGBTQ family members. Any child who lives in a family that is different from the stereotypical household of mum, dad, and children should not be made to feel less accepted, or that their family is any less loving and caring. Teachers would, of course, not set out to do this. However, if the only model of family life that is included in curriculum resources is that of mum, dad and children, what are the ‘hidden messages’ for children with families who sit outside of this pattern? Is my family not right or acceptable? Am I not acceptable? Should I not talk about my family? Will people pick on me because my family is ‘different’? Children who feel unaccepted or isolated are more vulnerable to the effects of mental and emotional stigma and potentially less able to apply themselves to learning.

The DfE guidance is as follows:

“In teaching Relationships Education and RSE, schools should ensure that the needs of all pupils are appropriately met, and that all pupils understand the importance of equality and respect. Schools must ensure that they comply with the relevant provisions of the Equality Act 2010, (please see The Equality Act 2010 and schools: Departmental advice), under which sexual orientation and gender reassignment are amongst the protected characteristics. Schools should ensure that all of their teaching is sensitive and age appropriate in approach and content. At the point at which schools consider it appropriate to teach their pupils about LGBT, they should ensure that this content is fully integrated into their programmes of study for this area of the curriculum rather than delivered as a standalone unit or lesson. Schools are free to determine how they do this, and we expect all pupils to have been taught LGBT content at a timely point as part of this area of the curriculum.

The Jigsaw philosophy values every child as a unique human being and does not discriminate but supports them all to achieve the best they can be. Jigsaw’s lessons help children explore why a loving and caring family is important. They have been written so that no child is made to feel inadequate or unaccepted, whatever their family background.

John Hellins will follow the Jigsaw scheme for this and it will be fully integrated into the programme of work. For further explanation as to how we approach LGBT relationships in the PSHE (RSHE) Programme please see:

Appendix 1: 'Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?'

Jigsaw PSHE documents needed to explain this policy:

- Including and valuing all children. What does Jigsaw teach about LGBTQ relationships? (Appendix 1)
- Jigsaw 3-11 and statutory Relationships and Health Education (mapping document) (Appendix 2)

**Appendix 1: Including and Valuing ALL children
What does Jigsaw teach about LGBTQ relationships?**

Why include teaching about LGBTQ (Lesbian, Gay, Bisexual, Transgender, Questioning) issues in Jigsaw?

1) Ensuring all children feel included

School (and wider society) is a place where all children should feel safe and respected. There are a variety of family situations in British society; some children will have parents who are separated, some may live with a mum and a dad, some may have step-parents, and some may be fostered or adopted. Some may have other family arrangements; and some will have LGBTQ parents or other LGBTQ family members. Any child who lives in a

family that is different from the stereotypical household of mum, dad, and children should not be made to feel less accepted, or that their family is any less loving and caring. Teachers would, of course, not set out to do this. However, if the only model of family life that is included in curriculum resources is that of mum, dad and children, what are the 'hidden messages' for children with families who sit outside of this pattern? Is my family not right or acceptable? Am I not acceptable? Should I not talk about my family? Will people pick on me because my family is 'different'? Children who feel unaccepted or isolated are more vulnerable to the effects of mental and emotional stigma and potentially less able to apply themselves to learning. The Jigsaw philosophy values every child as a unique human being and does not discriminate but supports them all to achieve the best they can be.

Jigsaw's lessons help children explore why a loving and caring family is important. They have been written so that no child is made to feel inadequate or unaccepted, whatever their family background.

2) Children may already be aware that some people are LGBTQ, or could be using vocabulary such as 'gay' to insult others.

Children will have heard, or will come to hear, some words such as 'gay' or 'transgender'. They may know some LGBTQ people, or have seen them portrayed in movies, television programmes, TV adverts and on social media. As a result, children may have questions or have misunderstandings about what these terms mean. Jigsaw lessons help by giving age-appropriate information, or assisting teachers to clarify children's questions age-appropriately. (See later).

Jigsaw also teaches children that **any word** used as an insult is hurtful and unkind. Within some of these lessons, children may raise homophobic or transphobic words they know or have used themselves. This affords teachers an opportunity to explain that using these words, in this way, is unacceptable. We are teaching children that respect and kindness are important values.

3) Teaching children to accept difference and to foster good relationships with others

Jigsaw does not 'promote' LGBTQ lifestyles. However, it does raise children's awareness that some people in society are LGBTQ. This is not done in isolation. When discussing similarity and difference in Jigsaw lessons, children learn about a whole range of differences, such as difference in physical appearance and personality, likes and dislikes, and that people can have differences of opinion. This helps them to understand that we are all unique human beings. Within the context of these lessons they will also be introduced to different cultures and ethnicities, people with different religions and beliefs, and about people with disability or special needs. They will also be aware that some people are LGBTQ.

When discussing any differences between people, Jigsaw helps teach children to form opinions about others based on whether they are kind, law-abiding, respectful,

trustworthy, and responsible people, rather than judging them on appearance or whether a particular aspect of their lifestyle is different to their own. Children also learn about discrimination and prejudice including racism, sexism, and ageism.

The Jigsaw Puzzle (unit), 'Celebrating Difference' helps children to understand that difference does not need to be feared but can be a source of celebration. This supports schools with their obligation to align with the Equality Act 2010.

4) Schools have a duty to uphold the Public Sector Equality Duty (PSED)

The PSED or the Equality Act, as it is more commonly known, requires schools to eliminate discrimination; advance equality of opportunity; and foster good relationships. By doing so, the Equality Act encourages schools to meet the diverse needs of children and to improve outcomes for all pupils regardless of background. Part of the Equality 'duty' is to teach children about rights and responsibilities, acceptance, empathy and understanding of others.

5) English schools have a duty to promote the spiritual, moral, social and cultural (SMSC) development of their pupils, including understanding British values.

The requirement to develop children's spiritual, moral, social and cultural understanding is set out in the Education Act (2002). In 2014, additional guidance was published for schools with regards to teaching British values. Guidance states that schools should promote the fundamental British values of democracy, the rule of law, individual liberty, mutual respect and tolerance, and makes it clear that children should learn about discrimination and how to combat it. As previously discussed, Jigsaw lessons, particularly in the Celebrating Difference units of work, include teaching children about acceptance, empathy, prejudice and discrimination, and the rights and responsibilities they have as UK and global citizens. A school's SMSC education is an important part of the Ofsted inspection framework.

6) Schools have a legal obligation to safeguard their pupils

In England, new legally-binding safeguarding guidance was released to schools in September 2018. This establishes that schools must protect all children from physical and emotional abuse including bullying on and off line and abuse that could happen from an adult or from other children. Teaching children to accept there are a whole range of differences in people, helps combat stigma, discrimination and bullying. Children also need to be taught how to access help if they are involved in a bullying, or abusive situation. Jigsaw's lessons, particularly in the Celebrating Difference and Relationships units of work, teach children why bullying can happen and why it is unfair, how to recognise a bullying/ abusive situation and how to get help. Within this work children discuss a wide range of reasons why some people are bullied, or become bullies, and this includes some discussion around name-calling which includes the inappropriate use of words such as 'gay' and 'lesbian' as an insult towards another person. Anti-bullying

guidance issued to schools in 2016 makes it clear that any bullying work should include teaching children why inappropriate use of these words is wrong and homophobic.

7) Statutory Relationships and Health Education in England

The Department for Education has already passed legislation to include mandatory Relationships and Health Education in the National Curriculum for primary schools from September 2020. New school guidance was ratified in March 2019 and sets out to schools what they are expected to teach. Primary children will learn that not all families are the same and to respect these differences. They will also learn about bullying and how to treat others with respect, whether this is within their immediate relationships, or in the wider community. The guidance also states that when learning about different families, care should be taken to avoid stigmatisation of children based on their home circumstances. It also reaffirms the duty for schools to comply with the Equality Act, where sexual orientation and gender-reassignment are two of the nine protected characteristics. The Relationships and Health Education guidance does not suggest a specific age when LGBTQ should be brought into the curriculum, but there is an expectation for it to be included in a sensitive and age-appropriate manner. Schools using Jigsaw will be compliant with these new regulations.

What exactly does Jigsaw teach about LGBTQ issues and is it age-appropriate?

• How much LGBTQ teaching is there in Jigsaw?

It is firstly important to understand that any reference to adult relationships, whether LGBTQ or heterosexual people is NOT describing sexual activity as this would be inappropriate. Relationships lessons focus on respect and regard between people e.g. friendships and families.

In upper Key Stage 2 the Changing Me Unit age-appropriately explains puberty and the biology of human reproduction.

Jigsaw is a complete scheme of work for Personal, Social, Health Education (PSHE) covering the entire PSHE curriculum for primary children aged 4-11. **Only a very small number of these lessons in the entire scheme have any focus upon LGBTQ issues.**

Jigsaw's philosophy is about inclusion and valuing all children.

• What LGBTQ material is taught in lower primary (infants)?

LGBTQ is not mentioned specifically in lessons for children aged 4-7. However, in lessons that explore differences in families, pictorial resources such as those below are used as a discussion focus. Questions such as; 'Which photos show a family?' 'What is important about a family?' and 'What does your family mean to you?' help children understand about their own and other's families and how a family is founded in love and respect.

Should children raise the question about pictures that show a same-gender couple, Jigsaw's teacher notes suggest this is explained to children in the following way: 'Some children have two mummies or two daddies.' Teachers are not expected to go beyond this response, or give more detail, as that would not be age-appropriate. However, this does acknowledge and include any children who have LGBTQ people as part of their family.

• **What LGBTQ content is discussed for children aged 7-11?**

In materials for 7-11-year olds, some lessons about bullying provide opportunities for teachers to discuss and correct homophobic language the children may be using, such as the inappropriate use of the words 'gay' and 'lesbian', or the use of slang words that are LGBTQ-phobic. In the same lessons they will also be exploring racist and sexist language, or insulting language that is used about a person's physical appearance, their abilities, or whether they have special needs. In these lessons, teachers explain that any insult is unkind and hurtful. Teachers explain that being gay is a type of adult relationship where two men or two women love each other in a romantic way, and if they choose, they can get married. Teachers are not expected to go beyond this definition and give more detail. It is simply explaining what being gay means and that the word 'gay' (or other LGBTQ-related words) should not be used in an insulting or derogatory way.

In Jigsaw's Relationships and Changing Me lessons for pupils aged 7-11 that cover relationships, puberty, growing-up and how a baby is made, children are given opportunities to ask questions if there is something they don't understand. LGBTQ relationships or being LGBTQ are not explicitly discussed in the lessons, unless questions are raised about it. In which case, Jigsaw's teacher notes give possible age-appropriate ways for teachers to answer these questions. Some examples are below:

Q) What is being gay?

A) Being gay is when a man loves/ fancies another man in a romantic way, or a woman loves/fancies a woman. They may go out together as boyfriend and girlfriend, or girlfriend and girlfriend, or in time they may choose to get married.

Q) How does someone know they are gay?

A) A person usually knows they are gay or not when they are an adult and have finished going through puberty.

Q) How do gay people make a baby?

A) Gay couples can't make a baby themselves because a baby needs both a woman's ovum and a man's sperm to be made. Some gay people choose to adopt children. Some might get help from a doctor/science (e.g. IVF) to make a baby, in the same way that male/female couples do whose bodies can't have children. (If children push for more detail, teachers are advised to say they will learn more about different ways to make a baby in secondary school, and not to expand beyond the example answer).

Q) How do gay people have sex?

A) Gay people have sex in lots of different ways which is just the same as for couples who are male and female (straight/heterosexual). Sex is a special and private part of an adult relationship. (If children push for more detail, teachers are advised to say that in primary school lessons will focus on growing up, puberty and how babies are made, and they will learn more about LGBTQ relationships in secondary school and not to expand beyond the example answer).

Being Transgender

In one lesson for 10-11-year olds, children are introduced to the word 'transgender' so they understand what it means. This lesson has a focus on prejudice and discrimination where a transgender example is used. The Equality Act is also explained in an age-appropriate way. Being transgender is discussed in the following terms:

Most people are not transgender. A transgender person doesn't feel their body matches with their gender. Let me explain...a person who was born with a male body may feel they are a female, and a person born with a female body may feel they are a male. There can be all sorts of reasons why this happens. Some transgender people choose to change their appearance or body so their gender matches with how they feel. This is called transitioning. Not all transgender people choose to do this though. (If children want more detail, teachers are advised to explain they will learn more about transgender people in secondary school and they should return to the focus of the lesson which is about prejudice and discrimination).

Jigsaw's decision to include this lesson was partly prompted by requests from schools who have pupils of primary age that have been identified as transgender, or are undergoing transition. Primary schools with a transgender pupil needed a lesson to help the rest of the class understand and empathise with their trans classmate. Jigsaw's decision was to include this lesson as a matter of course within the Year 6 (Age 10 -11) materials so children understand what being transgender means, in line with the Equality Act. But, if a school needed to use the lesson in earlier years (because they have a trans pupil in a specific class), they are free to do so and should adapt the lesson accordingly for the appropriate age group.

This lesson does not promote transgenderism as a preferred lifestyle. It simply explains what being transgender is, and how some people who are trans face unfair prejudice and discrimination, in the same way that other people do e.g. through racism, ageism, sexism and prejudice against people who are disabled.

What Jigsaw doesn't do

- Jigsaw does not teach or encourage children to be LGBTQ
- Jigsaw does not teach what LGBTQ people do sexually or how their relationships function
- Jigsaw does not promote LGBTQ lifestyles as a preferential way of living
- Jigsaw's advice about answering children's questions age-appropriately does not sexualise children, destroy their innocence, or encourage them to experiment. There is more properly researched peer-reviewed evidence that supports this claim, than not.
- Jigsaw materials do not undermine 'family values'.

What Jigsaw does do

- Jigsaw teaches children to be kind, understanding and respectful of others even if they are perceived as different
- Jigsaw teaches children that people have rights but there are also responsibilities that go with these
- Jigsaw teaches children that there are laws to protect them and others from being hurt or abused and helps protect them from bullying
- Jigsaw helps clarify (age -appropriately) questions that children may have about the world

Parental right to withdraw

Up until September 2020, when statutory Relationships and Health Education becomes law in England, parents and carers have the right to withdraw from Relationships and Sex Education in primary schools, apart from elements that are included with the school's science curriculum.

This parental right changes in September 2020 when parents will not be able to withdraw from Relationships and Health Education, and this includes lessons on puberty, prejudice and discrimination, bullying, difference and diversity and different families, including the content discussed in this leaflet.

The Education Secretary, the Rt Hon Damian Hinds, who has been instrumental in bringing this new legislation forward understands the needs to consult with parents. He is also putting trust in schools to do what is right for children and young people. He has also expressed how vital it is that children do not miss out on this aspect of education...

"...consultation does not provide a parental veto on curriculum content. We want schools to consult parents, listen to their views, and make reasonable decisions about how to proceed (including through consideration of school's wider duties)—and we (the Dfe) will support schools in this. We trust school leaders and teachers to make the right

professional choices....children should feel included and should grow up understanding the value and importance of kindness and respect for others and themselves...”

Rt Hon Damian Hinds 10th April 2019

Within the new DfE guidance and legislation for Relationships and Health Education, schools are actively encouraged to be open and honest with parents and carers about their intended Relationships and Health Education curriculum, and the resources they will be using. This is the reason why Jigsaw has produced this leaflet (and also one on Relationships and Sex Education) so that schools can share curriculum content with parents and carers.

Jigsaw 3-11 and statutory Relationships and Health Education (mapping document)
(Appendix 2)

Appendix 2: Relationships Education in Primary schools – DfE Guidance 2019

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with particular reference to friendships, family relationships, and relationships with other children and with adults.

The guidance states that, by the end of primary school:

	Pupils should know...	How Jigsaw provides the solution
Families and people who care for me	<ul style="list-style-type: none">• that families are important for children growing up because they can give love, security and stability.• the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.• that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.• that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.• that marriage represents a formal and legally recognised commitment of two	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none">• Relationships• Changing Me• Celebrating Difference• Being Me in My World

	<p>people to each other which is intended to be lifelong (Marriage in England and Wales is available to both opposite sex and same sex couples. The Marriage (Same Sex Couples) Act 2013 extended marriage to same sex couples in England and Wales. The ceremony through which a couple get married may be civil or religious).</p> <ul style="list-style-type: none"> • how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed. • about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help. • what a stereotype is, and how stereotypes can be unfair, negative or destructive. • the importance of permission-seeking and giving in relationships with friends, peers and adults. 	
Online relationships	<ul style="list-style-type: none"> • that people sometimes behave differently online, including by pretending to be someone they are not. • that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous. • the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them. • how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met. • how information and data is shared and used online. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Relationships • Changing Me • Celebrating Difference
Being safe	<ul style="list-style-type: none"> • what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context). 	<p>All of these aspects are covered in lessons within the Puzzles</p>

	<ul style="list-style-type: none"> • about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe. • that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact. • how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know. • how to recognise and report feelings of being unsafe or feeling bad about any adult. • how to ask for advice or help for themselves or others, and to keep trying until they are heard, • how to report concerns or abuse, and the vocabulary and confidence needed to do so. • where to get advice e.g. family, school and/or other sources. 	<ul style="list-style-type: none"> • Relationships • Changing Me • Celebrating Difference

Physical health and mental well-being education in Primary schools – DfE Guidance

The focus in primary school should be on teaching the characteristics of good physical health and mental wellbeing. Teachers should be clear that mental well-being is a normal part of daily life, in the same way as physical health.

By the end of primary school:

	Pupils should know	How Jigsaw provides the solution
Mental wellbeing	<ul style="list-style-type: none"> • that mental wellbeing is a normal part of daily life, in the same way as physical health. • that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me • Relationships • Changing Me • Celebrating Difference

	<ul style="list-style-type: none"> • how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings. • how to judge whether what they are feeling and how they are behaving is appropriate and proportionate. • the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness. • simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests. • isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support. • that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being. • where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online). • it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough. 	
Internet safety and harms	<ul style="list-style-type: none"> • that for most people the internet is an integral part of life and has many benefits. 	All of these aspects are covered in lessons within the Puzzles

	<ul style="list-style-type: none"> • about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical wellbeing. • how to consider the effect of their online actions on others and knowhow to recognise and display respectful behaviour online and the importance of keeping personal information private. • why social media, some computer games and online gaming, for example, are age restricted. • that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health. • how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted. • where and how to report concerns and get support with issues online. 	<ul style="list-style-type: none"> • Relationships • Healthy Me
Physical health and fitness	<ul style="list-style-type: none"> • the characteristics and mental and physical benefits of an active lifestyle. • the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise. • the risks associated with an inactive lifestyle (including obesity). • how and when to seek support including which adults to speak to in school if they are worried about their health. 	<p>All of these aspects are covered in lessons within the Puzzles</p> <ul style="list-style-type: none"> • Healthy Me
Healthy eating	<ul style="list-style-type: none"> • what constitutes a healthy diet (including understanding calories and other nutritional content). 	<p>All of these aspects are covered in lessons within the Puzzles</p>

	<ul style="list-style-type: none"> the principles of planning and preparing a range of healthy meals. the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health). 	<ul style="list-style-type: none"> Healthy Me

Appendix 3: selection of lessons from each year group (F1 to Year 11/age 3 to 16) where safeguarding and/or consent are covered – implicitly or explicitly

The grid below outlines a selection of lessons from each year group (F1 to Year 11/age 3 to 16) where safeguarding and/or consent are covered – implicitly or explicitly.

Year Group	Puzzle (unit)	Piece (lesson)	Content	Link to safeguarding
F1/2	Celebrating Difference	6 – Standing up for yourself	Children learn how to improve things if they don't like what someone says or does to them.	Children are given the opportunity to practise the phrase, 'Please don't do that, I don't like it'; they are also reminded that if someone says that to them, they have to stop whatever they are doing to cause another child to say the phrase.
F1/2	Healthy Me	6 – Stranger Danger	Using stories like 'Never Talk to Strangers', children discuss with suggestions about what they could do to keep themselves safe.	Children are encouraged to think about what they could do if they don't feel safe, and who they can go to if they feel unsafe. The message. 'Say NO and DON'T GO!' is reinforced throughout the lesson, particularly when discussing grown-ups who approach children inappropriately and ask for their help.
F1/2	Relationships	4 & 5 – Falling out and bullying	Children explore how they feel if someone says something unkind to them.	These lessons encourage children to take responsibility for their words and actions and to help them know who to go to if they need help. Calm Me time is used to help children manage their feelings.
F1/2	Changing Me	2 – Respecting my body	Reinforcing the concept that our bodies are our own, are precious and need looking after.	This lesson helps to reinforce how children can take responsibility for their bodies (to a point) and how to look after themselves.
1	Celebrating Difference	3 – What is bullying?	Children learn how to improve things if they don't like what someone says or does to them.	This lesson, and indeed the whole Puzzle, reinforces the messages about tolerance, difference and similarity, and how to be a better friend, and how to deal with bullying if it arises.
1	Celebrating Difference	4 – What do I do about bullying?		
1	Relationships	4 – People who help us	Using the scenario cards (or make up your own), children act out scenarios showing when they can ask for help and from whom they can receive help.	If children find something unsuitable on a computer, or see/hear something that they feel uncomfortable about, practise with them who they can ask for help and what they can say.

1	Changing Me	4 – Boys’ and Girls’ Bodies	Children identify the parts of the body that make boys different to girls and can use the correct, scientific names for them	By using correct terminology for part of the body, children can learn to respect their own and others’ bodies and understand which parts are private (meaning ‘special and important’, not ‘guilty’ or ‘not very nice’).
2	Being Me in My World	2 – Rights and Responsibilities	Children learn about their rights, how to uphold them for themselves and others, and how rights come with responsibilities.	This lesson helps children understand that all children have the right to be safe, healthy, happy and to learn.

2	Celebrating Difference	3 – Why does bullying happen?	Identifying that bullying is sometimes about difference allows children to understand more and to decide not to bully.	This lesson, and indeed the whole Puzzle, reinforces the messages about tolerance, difference and similarity, and how to deal with bullying if it arises (where to go for help, what to say and do in a bullying situation).
2	Celebrating Difference	4 – Standing up for myself and others	Children are empowered to know what is right and wrong and to look after themselves.	
2	Relationship	2 – Keeping safe – exploring physical contact	The lesson focuses on how there are many different forms of physical contact within a family – and some of this is acceptable and some is not.	Children can think about which types of physical contact they like, which they don’t like, and they can talk about this in a safe way and know it is OK to say they don’t want to be touched in that way e.g. punched or hugged if that is how they feel. Some of the lesson is taught through stories. Teachers are encouraged to be vigilant throughout this lesson. This lesson, along with others in previous year groups, highlights why teaching about consent is important from such a young age.
2	Relationship	4 – Secrets	Children learn that sometimes secrets are good and sometimes they are not good – and how they feel if they are asked to keep a secret they don’t want to keep, and who to talk to about it.	Through understanding about good secrets and ‘worry’ secrets, children can practise giving advice to Jigsaw Jo to help with any ‘worry’ secrets. Teachers can emphasise that ‘worry’ secrets need to be told to an adult and not kept inside.

3	Celebrating Difference	2 – Family conflict	This lesson explores how sometimes conflict occurs in families and how children can calm themselves down and use solution-based techniques to help themselves.	Children think about a possible source of family conflict and of ways to help solve it. Teachers need to be aware of all children's domestic situations (particularly any that may be violent) before teaching this lesson; notes in the lesson plan are provided to help.
3	Celebrating Difference	3 & 4 – Witness and feelings & Witness and solutions	Children learn that the role of witnesses in bullying situations, and that sometimes a witness can hinder rather than help.	Homophobic bullying is covered in these lessons, as well as what children can do if they see bullying taking place. The Jigsaw 'Solve It Together' technique is especially helpful for children to have a strategy to help themselves and others.
3	Healthy Me	4 – Being safe & 5 Safe or unsafe	Children identify things, people and places that they need to keep safe from, and can share some strategies for keeping themselves safe, including who to go to for help.	Using the 'We are keeping safe from...' cards, children can come up with strategies for Jigsaw Jino to keep safe in different situations, including online. Children can also complete the 'Keeping Safe' templates to form their contributing chapter for the school's Healthy, Happy Me Recipe Book (assessment task). They can learn how to take responsibility for keeping themselves and others safe, and why this is important (and that adults do not always have to be present).

3	Relationships	3 – Keeping myself safe online	Children discuss things that they might need to keep safe from when online.	Children rank the top tips for keeping safe online and discuss their ranking decisions, while learning about the importance of trust.
4	Celebrating Difference	3 – Understanding bullying	Reinforcing the messages from previous year groups, this lesson focuses on more surreptitious bullying and how to better understand bullying behaviour.	For older children, it is timely to look at the intricacies of bullying and how sometimes it can be difficult to spot. Teachers are encouraged to know what the school's anti-bullying policy states and to ensure that this lesson adheres to the guidance.
4	Healthy Me	5 – Healthy Friendships	This Piece looks at how children can learn to recognise when people are putting them under pressure and how to resist this when they want.	Through the context of healthy friendships, children can explore their possible feelings of anxiety and fear and how this might be associated with peer pressure; it could also be applied to the pressure they might feel from other people.

4	Healthy Me	6 – Celebrating My Inner Strength and Assertiveness	Helping children learn that they can have a clear picture of what they believe is right and wrong, and to know how to be assertive when they need to be.	Children can learn to draw on their own sense of right and wrong to help make decisions that suit them. Using some simple assertiveness techniques can help children feel more empowered in their lives and can help to keep them from harm.
5	Celebrating Difference	2 – Racism	Children learn about what racism is and how their own attitudes can affect how they treat others.	The concepts of racism and discrimination are introduced to children and they are invited to share their thoughts. Particular emphasis is given to the words that people use, often without understanding them, and how they can be racist.
5	Celebrating Difference	3 & 4 – Rumours and name-calling & Types of bullying	Children learn about how rumours are spread and how name-calling can both be bullying behaviours. They also learn the difference between direct and indirect bullying.	Both lessons help children to learn ways that they can be empowered to help themselves, and to report anything that feels wrong to them.
5	Relationships	2-6 – Online safety lessons x5	Lessons on staying safe when using technology. Children learn to recognise and resist pressure to use technology in ways that may be risky or cause harm to others.	Rights and responsibilities are being online, staying safe, and relationships with technology all refer implicitly to safeguarding within these lessons.
6	Celebrating Difference	3 – Power struggles	Children explore power in different contexts – how sometimes it is needed, and how sometimes it is unwarranted and can feel unsafe.	This lesson focuses on power scenarios, how to identify them and how to deal with them practically in real life.
6	Celebrating Difference	4 – Why bully?	Children learn about some of the reasons why people bully, using various example scenarios.	Children are encouraged to practise and use a variety of strategies in managing their feelings in bullying scenarios – and how they can help solve problems if they are part of a bullying situation.

6	Relationships	4 – Power and Control	Returning to more assertiveness training, where children learn to recognise when people are trying to gain control or power, and how they can stand up for themselves (and their friends) in situations when others try to gain control or power.	Power and Control headlines and scenario cards are used to facilitate discussion among the children so they can decide on whether someone is being 'controlling' – and then to practise some helpful assertiveness techniques, which demonstrate how to deal with some of these situations.
6	Relationships	5 – Being Online: real or fake? Safe or unsafe?	Linked to previous lessons, children learn how to judge whether something online is safe and helpful	Online scenario cards are used to give examples of what might happen if someone tried to use technology to gain power over another.
6	Relationships	6 – Using technology responsibly	Children learn to use technology positively and safely to communicate with friends and family, whilst taking responsibility for their own safety and wellbeing.	This lesson focuses on the SMARRT rules and how to stay safe and happy online – and what to do if you don't feel safe.
