

Project Planning – Bright Lights, Big City

Newton – Spring 2

L.O. To be able to name, locate and know surrounding seas of the United Kingdom, including capital cities.

The children will use an atlas to locate the seas and capital cities. They will write a sentence to explain what the capital cities are for each country.

L.O. To be able to name, locate and know surrounding seas of the United Kingdom, including capital cities.

The children will use their own map to locate the seas, cities and countries of the United Kingdom.

L.O. To know when cars and bikes were invented and how they have changed over the years.

The children will compare and contrast the first wooden bicycle to bikes found today.

L.O. To know when cars and bikes were invented and how they have changed over the years.

The children will create a timeline of cars through the years and describe how they have changed.

L.O. To know where, when and how the most memorable buildings on the planet were built and their significance.

The children will learn about a range of different building from around the world and write a report about one of these.

L.O. To know where, when and how the most memorable buildings on the planet were built and their significance.

The children will learn about a range of different building from around the world and write a report about one of these.
