

Numeracy

Objectives to be covered this term.

- To count in order 20.
- To create patterns using 2D and 3D shapes.
- To know one more and one less than a given number.
- Know how to use a ten frame and recognise quantities within a ten frame.
- To make comparisons between two objects relating to size, length, weight and capacity.
- To be able to compose numbers up to 10 in different ways.
- To solve problems by doubling, halving and sharing.
- To understand addition and subtraction, and what it does to a number.
- To understand positional language: under, on top, below, first, second etc.

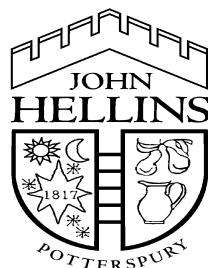

To help at home, you can point our numbers in the environment, count objects, bake together. If you would like a recommended online number site I would copy this link to BBC bitesize

Project learning and vocabulary

Our project for this term is 'Traditional tales'. We will be reading lots of traditional tales like: Goldilocks and the three bears, Jack and the beanstalk and Little red hen with a focus on re-telling the stories. We will begin this topic by reading the story 'The three little pigs' and use puppets to tell the story. We will then look at the alternative story for this called 'The three little wolves and the big bad pig'. Our focus will be, planning and building structures, specifically thinking about how to make it stable, how to fix it together and what will make it better. Key vocabulary choices will include words such as:

Fix	Structure	Fairytale	Fiction	Story
Join	Map	Direction	Stable	Character

Summer Update Franklin Class

Home learning

During this term, please continue to read with your child on a regular basis. We suggest four times a week for five to ten minutes. Practise is so important in the skill of reading. Please continue to bring reading books as well as sound mats in daily. We will hear children read at least once over a fortnight. If you would like a change of book then let Mrs Bonini know. We have been so pleased with the progress of the children's reading.

Literacy

Objectives to be covered this term.

- To continue a rhyming string.
- To be able to read simple sentences.
- To be able to link sounds to known graphemes and spell words phonetically
- To name and sound the letters of the alphabet.
- To be able to read and write tricky words.
- To enjoy an increasing range of books.
- To re-tell a story in sequence.
- To be able to make predictions about a text.
- To be able to answer questions related to a text.
- To be able to write their own name and other things such as labels and captions.
- To be able to talk about past, present and future events.
- To write a series of sentences which can be read by others.
- To be able to form most letters correctly

To help at home, you can point out the rhyme in reading books and comment on the spelling of rhyming words. You can look for words and letters children can recognise in their favourite books at home. You can also involve children in writing cards, lists and notes around the house. If you would like a recommended online tool for learning to read, I would suggest the app,

Teach your monster to read.
