

John Hellins Primary School

Behaviour Principles

We expect all adults and children to:

- Treat each other respectfully, kindly and with consideration; treating others as we wish to be treated ourselves.
- Talk and listen to one another in order to understand different points of view, and do not jump to conclusions.
- To show tolerance and be fair and consistent to each other however, we recognise that by treating people fairly, we may not treat everyone the same.
- Take pride in and care for the school by looking after school property and equipment, showing responsibility.
