

Art

- Mondrian and Kandinsky use shape and pattern in their artwork
- The primary colours are red, yellow and blue
- Mixing primary colours creates secondary colours
- Digital art uses technology such as tablets and computers

DT

- Food grows above ground, underground and on trees and bushes
- You can use tape, glue, tabs and holes and rope to fix materials together

Geography

- Maps help us travel from one place to another
- We use left and right to give directions

RE

- People all over the world follow lots of different religions like: Christianity, Sikhism, Hinduism, Judaism and Islam
- Muslims worship in a Mosque
- Jewish people wear a Kippah, Muslim women wear a hijab, Hindus wear bright clothing such as a Sari

History

- We can get information about history from talking to people who are older than us
- We know a character is from the past because of what they wear, how they talk and from pictures in the text

Traditional Tales

Science

- Habitats are animals homes
- Field, trees, ocean, forest, mountains and rivers are all types of habitat

Music

- An untuned instrument is played by hitting and shaking
- Untuned instruments provide a wide variety of sounds, rhythms and effects
