

Project Planning – Reach for the Stars

Class Edison – Summer 2

To know the events beyond living memory that are significant nationally.

The children will learn about The Great Fire of London and produce a timeline of the key events.

They will learn about fire safety and carbon monoxide alarms.

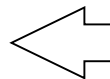

To be able to use simple fieldwork and obs skills to study the geography of the school and grounds.

To use compass point directions to navigate through the school ground to find 'the alien' that has landed.

To be able to identify and name plants and animals in their habitats and name a variety of animals.

The children will compare and contrast animals from two different habitats.

To be able to identify parts of the human body, related to senses, including teeth.

The children will learn the names of different teeth and explain their purpose.

To be able to identify and name wild and garden plants, including deciduous and ever green trees.

The children will sow their own seed to take home and observe it over time.
